

NIH funding opportunities

Faculty of Medicine and Health Sciences: Research Development and Support 30 Aug 2021 (#28)

[Click on blue [hyperlink](#) for further information]

The NIH funding opportunities listed below are only a **selection** of pre-screened, currently open health funding opportunities for which **South African institutions are eligible to apply**. For a comprehensive selection of NIH funding opportunities, please visit www.grants.nih.gov or www.sun.ac.za/RDSfunding (current & archive).

Confirm your intent to apply ASAP, but not later than 60 days before the submission date.

Tygerberg Campus: cdevries@sun.ac.za • Stellenbosch Campus lizelk@sun.ac.za

Parent Announcements

Parent Announcements (PA) for unsolicited are broad funding opportunity announcements allowing applicants to submit investigator-initiated applications. They are open for up to 3 years and use standard due dates.

- [PA-20-185](#) NIH Research Project Grant (Parent R01 Clinical Trial Not Allowed)
- [PA-20-184](#) Research Project Grant (Parent R01 Basic Experimental Studies with Humans Required)
- [PA-20-183](#) Research Project Grant (Parent R01 Clinical Trial Required)
- [PA-20-200](#) NIH Small Research Grant Program (Parent R03 Clinical Trial Not Allowed)
- [PA-20-195](#) NIH Exploratory/Developmental Research Grant Program (Parent R21 Clinical Trial Not Allowed)
- [PA-20-194](#) NIH Exploratory/Developmental Research Grant Program (Parent R21 Clinical Trial Required)
- [PA-20-196](#) NIH Exploratory/Developmental Research Grant Program (Parent R21 Basic Experimental Studies with Humans Required)

Important Notices

[NOT-AG-21-020](#): Notice of Special Interest (NOSI): Maximizing the Scientific Value of Secondary Analyses of Existing Cohorts and Datasets in Order to Address Research Gaps and Foster Additional Opportunities in Aging Research. The goal of this Notice of Special Interest (NOSI) is to encourage the use of existing cohorts and datasets for well-focused secondary analyses to investigate novel scientific ideas and/or address clinically related issues on: (1) aging changes influencing health across the lifespan (e.g., Alzheimer's disease and Alzheimer's disease-related dementias (AD/ADRD)), (2) diseases and disabilities in older persons, and/or (3) the changes in basic biology of aging that underlie these impacts on health (the hallmarks of aging). Applicants responding to this NOSI are strongly encouraged to describe plans for rapid sharing of data and results as well as innovative data analytics approaches (see Goal 3, [NIH Strategic Plan For Data Science](#)). Please note that applications proposing exploratory or developmental projects should consider using [PA-20-195](#), whereas projects that already have sufficient preliminary data or a very strong and well-developed scientific premise should use [PA-20-185](#).

Funding Opportunity Announcements (FOA)

1. Implementation Science for Cancer Control in People Living with HIV in Low- and Middle-Income Countries (U01 Clinical Trial Optional)

Letter of Intent: 30 days prior to the application due date

Hyperlink: [RFA-CA-21-056](#)

Type: U01

Application Due Date: December 15, 2021. Apply by 5:00 PM local time of applicant organization

Funding Opportunity Announcement: The purpose of this Funding Opportunity Announcement (FOA) is to support Implementation Science for Cancer Control in People Living with HIV (PLWH) in Low- and Middle-Income Countries (LMICs) to accelerate the integration of evidence-based cancer control interventions for PLWH by leveraging existing HIV treatment and prevention infrastructure. Specifically, this FOA solicits applications that will identify, understand, and develop strategies to address barriers to the adoption, integration, and sustainability of evidence-based cancer control interventions among PLWH in LMICs and generate data in LMICs that can inform effective and equitable implementation of evidence-based cancer control for PLWH worldwide. Responsive applications should include multi-disciplinary teams of researchers with expertise in HIV, cancer, and implementation science to address the cancer control needs of PLWH populations specific to the proposed LMIC context.

Budget: NCI intends to commit \$ 5 million in FY 2022 to support up to 6 awards. Application budgets are limited to \$500,000 in direct costs per year. The maximum project period is 5 years.
