

A ROAD TO GREATER INDEPENDENCE

JACQUES MASURET

Auxin lunch session
Stellenbosch
30 August 2016

OUTLINE

- 1) Setting context
- 2) Problem identification
- 3) Possible reasons
- 4) Possible causes
- 5) Action plan
- 6) Results
- 7) Conclusion

MATHEMATICS 186 – SEMESTER 1

○ All assessment opportunities are **compulsory**.

- 1) Online quizzes – weekly
- 2) Tutorials and Tutorial tests – weekly
- 3) Early Assessment Test (Test 1)
- 4) Semester Test (Test 2)
- 5) Exam (Test 3)

PROBLEM IDENTIFICATION

- Lecturers have noted the weak performance of a substantial number of 2nd year students
- Dependency on memoranda

POSSIBLE REASONS

- Students lack academic independence
- Students have superficial content knowledge

Mimi and Eunice – Becoming Independent – <http://mimiandeunice.com>

POSSIBLE CAUSES

- Mandatory assessment that leads to assessment-dependent learning
- Complete memoranda have been readily available

ACTION PLAN (AP)

- Many assessment opportunities are **optional**
- Provide **incomplete** memoranda

OPTIONAL

AP - MATHEMATICS 186: SEMESTER 2

- 1) No online quizzes
- 2) Tutorials and Tutorial tests - optional
- 3) Early Assessment Test - optional
- 4) Semester Test (Test 4) - mandatory
- 5) Exam (Test 5) – mandatory

AP PROCESS

- Communication is vital
 - Explain the process in detail
 - Motivation and reasoning
 - Positives and negatives

- Motivation
 - Provide regular support
 - Ask a student from the previous year to come and talk to the current students

Stars

RESULTS

Test averages

TEST 4 (80 students)

Average: 45.6%

<50%: 47 students

TEST 5 (80 students)

Average: 51.8%

<50%: 33 students

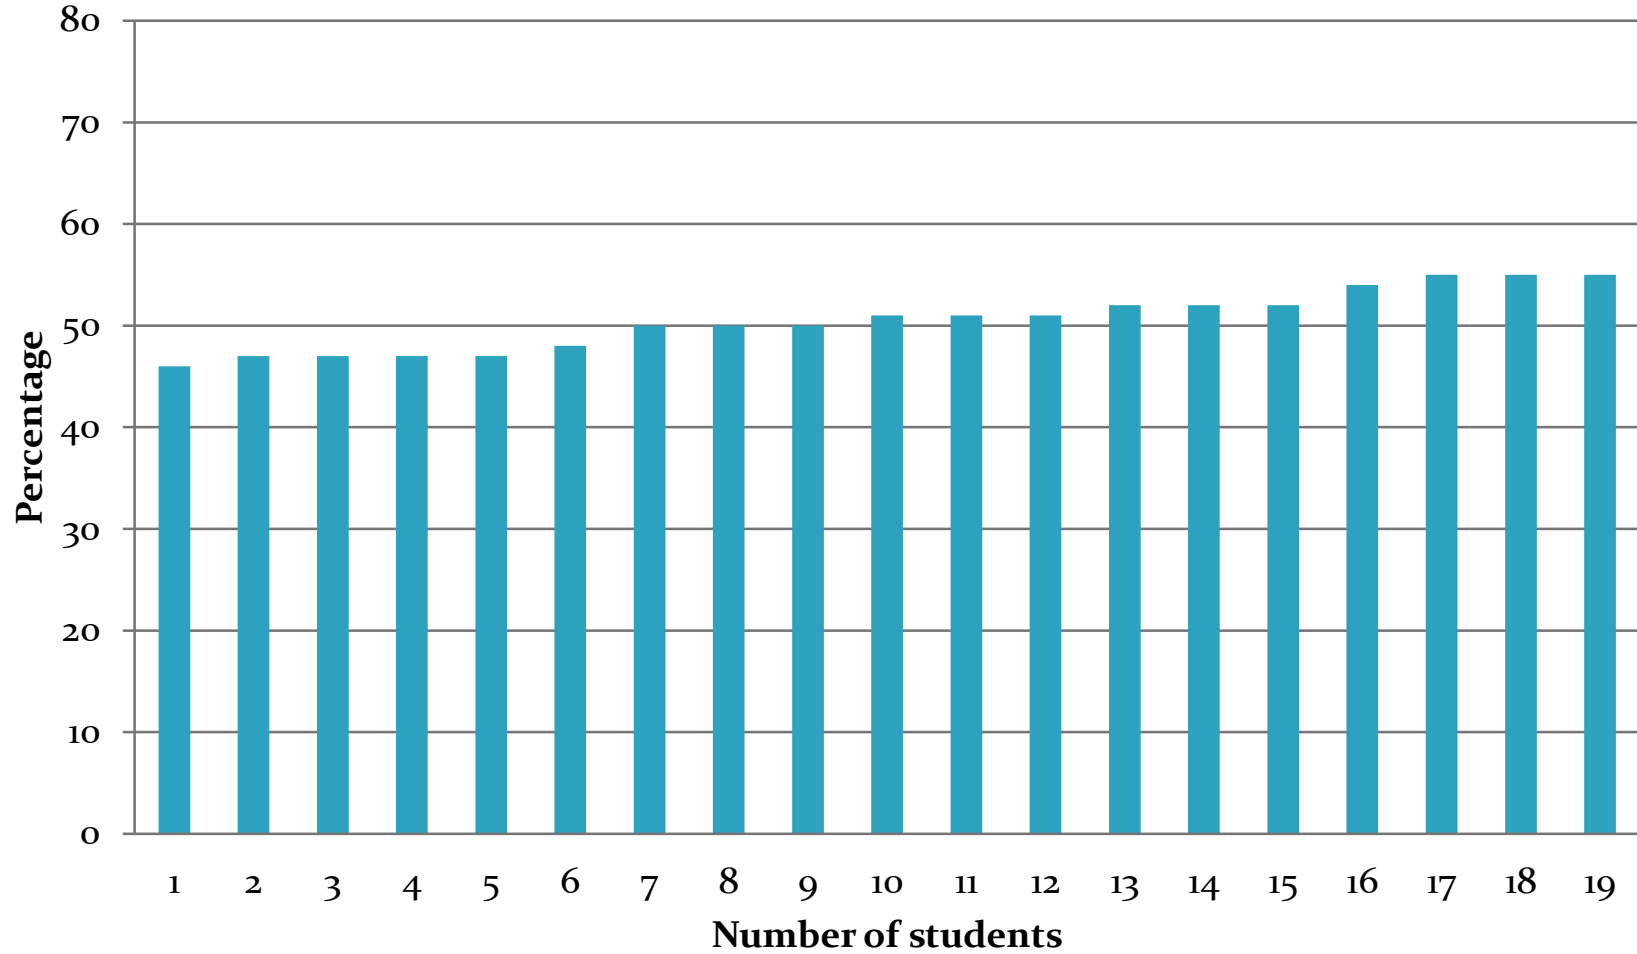

SEMESTER 1 vs SEMESTER 2

	Semester 1	Semester 2
# Students	83	80
1) Average	59%	49%
$\geq 50\%$	67 (84%)	44 (55%)
2) Increase in %		17 (21%)
$\geq 50\%$		16 (94%)
3) At risk students	19 (23%)	
$\geq 50\%$		6 (8%)

At risk students (1st semester)

At risk students (2nd semester)

At risk students

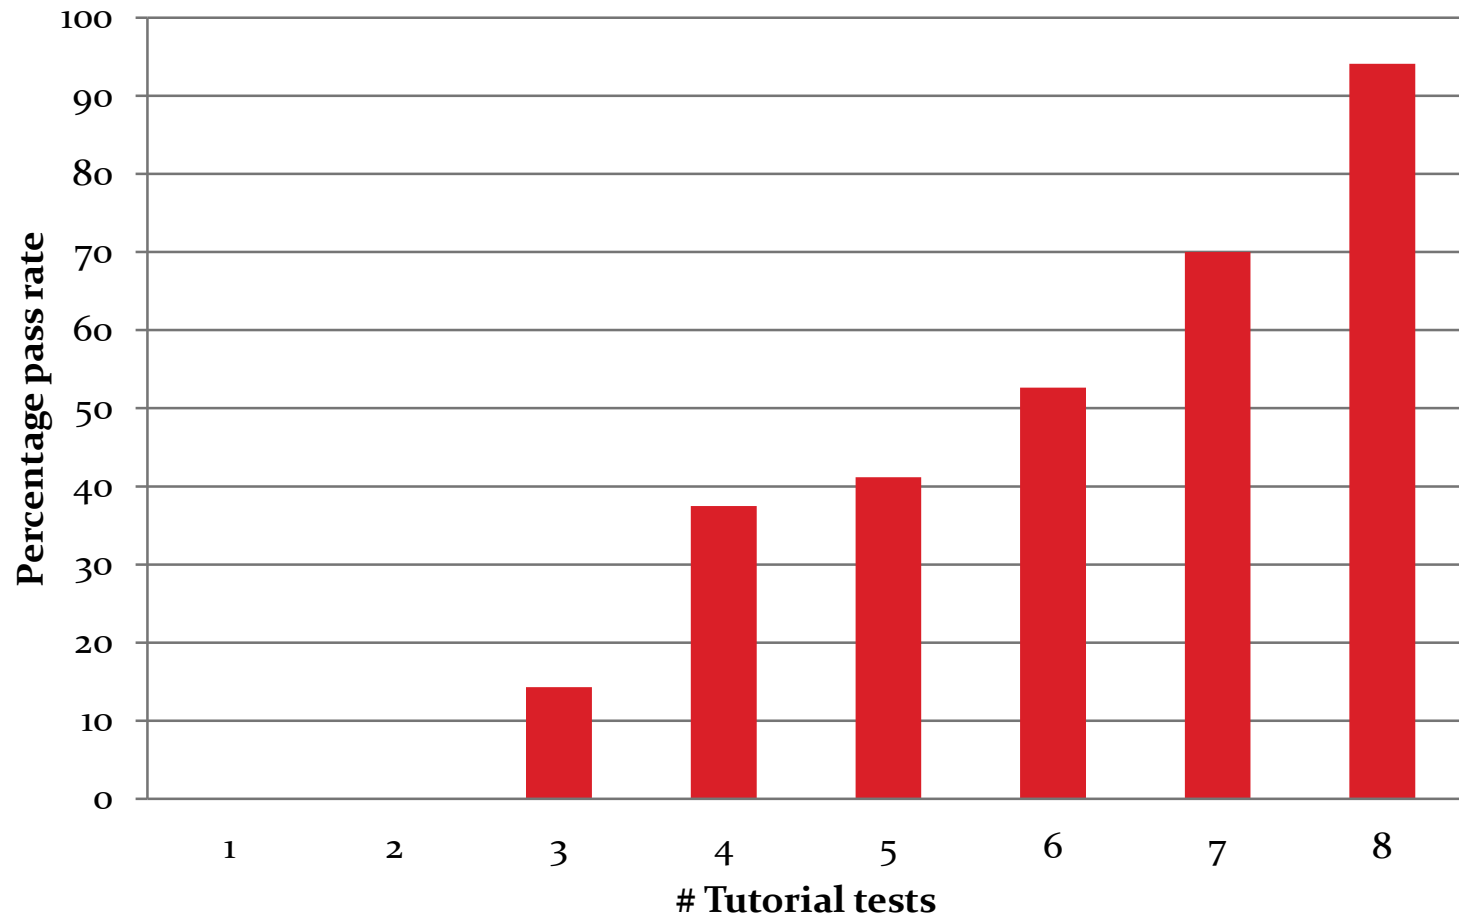

TUTORIAL TESTS (2ND SEMESTER)

# TUTORIAL TESTS	ATTENDANCE	AVERAGE	# STUDENTS	≥ 50%	PERCENTAGE
1	74 (93%)	46%	1	0	0%
2	79 (99%)	57%	1	0	0%
3	78 (98%)	55%	7	1	14%
4	68 (85%)	61%	8	3	38%
5	60 (75%)	58%	17	7	41%
6	57 (71%)	66%	19	10	53%
7	20 (25%)	65%	10	7	70%
8	30 (38%)	49%	17	16	94%

% pass rate of students who wrote Tutorial Tests

CONCLUSION

- This model requires
 - Communication
 - Motivation
 - Support
- This model seeks to provide
 - Greater academic independence
 - Deeper understanding
 - Less administration
- Room for improvement
 - Greater support for the at-risk students

The End
